48"-96"	Two	491024-1
36"-96"	Three	491034-1
56"-144"	Three	491036-1

FEATURES

- 1. Anti-Slip Rubber Hook**
Our boat hook features an over-molded soft rubber hook coating to protect your boat from scuffs and scratches.
- 2. Marine Grade Aluminum Tubing**
Every Sea-Dog boat hook is made from marine grade aluminum tubing, allowing for smooth and reliable operation over the life of the product.
- 3. 4-Point Hook Attachment**
The hook is attached at four points on the aluminum pole instead of the usual two points on most competitive models for greater strength and durability.
- 4. Comfort Grip Handle**
The UV protected rubber handle provides a cushioned grip and comes with a pliable hanging eye.
- 5. Rubber Tip Cover**
A screw-on soft rubber tip prevents scuffing and is removable for accessory attachment. Bright orange color provides easy in-the-water visibility.
- 6. Mooring Hook Platform**
The boat hook also features a pre-drilled platform area to install a mooring hook.
- 7. Knurled Telescopic Grip**
Each telescopic boat hook model features a knurled grip to allow for easier gripping and operation.
- 8. Buoyant Design**
Sea-Dog boat hooks have been tested for buoyancy in fresh water and salt water, and remain buoyant for over 5 minutes.
