

LED Rod Holder

325181-1

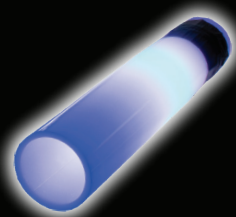

This patented LED RGB Rod Holder features a translucent tube insert with bright RGB LEDs.

LED Rod Holder Cap Light

325188-1

Attaches on the bottom of any 2" diameter rod holder.

LED Tube Insert

325189-1

Retrofit your existing rod holder by removing your existing liner, installing the tube insert and cutting it to your mounting face angle.

Bluetooth Smartphone Controller

403051-1

Using Bluetooth technology, this RGB LED controller lets you operate LED lights with your smartphone. Choose from numerous color changing modes with adjustable speed and brightness levels. Additional features include six timer settings, music sync, color change via phone shake, and photo color match.
